During our summer 2018 consultation you told us about the issues that matter most to you, such as noise, air quality, and climate change. We would like to hear from you on our plans to manage the environmental impacts. Please see chapter 9 of the Guide to Statutory Consultation, in which we identify some of the key impacts that expanding the airport could have, and how we are proposing to manage and mitigate them. Further detail can be found in our Preliminary Environmental Information Report, which is available on our website, [futureluton.llal.org.uk](http://futureluton.llal.org.uk), and at the document inspection venues and consultation events listed in chapter 12 of the Guide to Statutory Consultation.

**Q9e. Do you have any other comments on our proposals to manage and mitigate the effects of airport expansion?**

**Land assembly and compensation**

Please see chapter 10 of the Guide to Consultation, in which we outline our proposals for acquiring the land we would need to expand the airport.

**Q10a. Do you have any comments on the extent of land and rights we are seeking to acquire both permanently and temporarily, and our proposal to apply for compulsory acquisition powers to achieve this?**

Chapter 10 of the Guide to Statutory Consultation also outlines our compensation proposals. We recognise that some people who live in, or own property near, LTN will be affected by its expansion. We have prepared a Compensation Proposals document to explain our general approach to property and land acquisition, which also sets out the discretionary compensation available for eligible properties. These discretionary offers are intended to enhance the terms available under the statutory compensation code for eligible properties, but do not change your statutory rights. The Compensation Proposals document is available on our website, [futureluton.l1al.org.uk](http://futureluton.l1al.org.uk), and at the document inspection venues and consultation events listed in chapter 12 of the Guide to Statutory Consultation.
